## Introduction

This procedure allows the insertion of an image to be showed at the switching on of the PMQ5CF for the duration of the instrument initialization, via the USB port on the back of the controller MQ5CF.

## Premise

Copy in the root (main folder) of the USB upgrade the **LOGO.QNG** file.

## Procedure

1. Turn off the instrument.
2. Insert the USB key on the back of the MQ5CF.

3. Turn on the MQ5CF while holding down the **FUNC**  on the back of the product, or the **F1** .
4. After a few moments the MQ5CF enters the area of system functions. Press the **F1**  button to get to the function **02 - Copy all files DEVICE -> NAND.** .
5. To execute the function press and hold the **F7**  button for 2 seconds or the **BOOT** button  on the back.
6. Start the upgrade process. .
7. When the procedure has finished, is showed **Successful** To report the correct execution.

Pressing **F1**  or **FUNC** , the MQ5CF is restarted.

The image file (LOGO) is loaded and the procedure is completed.
