Show NAND Flash files

This views the name and size of all files found in the internal NAND flash mass storage.

The procedure performs the following steps:

- Calculate the number of files in the internal mass storage.
- The “Searching files...” message is given.
- If zero files are found the “No Files Found” message is given and the procedure ends.
- The file name and size in bytes “<filename> - <size>B” of each file found is shown.
- Press the BOOT key or the ENTER button again to continue and the next file when the “Press BOOT or ENT to show next filename” message is given
- Close the internal storage device and end procedure
