SIN (Sine in Radians) 3

SIN (Sine in Radians)

Function name	SIN_010
Function version	1.0
Function state	stable
Compatibility with IEC61131-3	compatible

Graphic symbol :

Input / Output :

Name	Belonging Group	Access	Types of data	Description
EN	Left Power Flow			IEC1131-3 enable input
A	Normal	R, RW	F, B, W, L, S	Input variable A in radians
Q	Normal	W, RW	F, B, W, L, S	Result of the operation $Q = \text{SIN}(A)$
ENO	Right Power Flow			IEC1131-3 enable output

Description :

This function executes the operation Sine; it calculates the trigonometric function sine of the angular value A and place the result in Q.

The input angle is in radians. To convert an angle from degrees to radians, you have to multiply it by $1.745329E-2$ (corresponding to about $\pi / 180$).
